I upload my notes (you find it in the following folder: Class materials/9thclass) nevertheless, I suggest you to create your own (you will understand the material more deeply if you write it down the material).

You also find the material in pages 441-444 of the lecture notes:

https://www.renyi.hu/~csiszar/Publications/Information_Theory_and_Statistics:_A_Tutorial.pdf

Do not forget that the deadline of the second homework is April 2. I ask you to use Windows Teams to send me the solutions.

On March 26 between 10:30-11:30 I will provide live Windows Teams consultation. If you have any questions do not hesitate to join the meeting.

I will upload the material of the 10th class on March 27.

Have a nice learning!

Tamás
