Petz Dénes publikációi[1]

Könyvek:

1. D. Petz, *An invitation to the algebra of the canonical commutation relation*:
   Leuven University Press, Leuven, 1990. **Hiv:** 122

2. M. Ohya and D. Petz, *Quantum Entropy and Its Use*:
   Springer-Verlag, Heidelberg, 1993. Secon edition 2004. **Hiv:** 858

3. F. Hiai and D. Petz, *The semicircle law, free random variables and entropy*:
   American Mathematical Society, Providence, 2000 **Hiv:** 428

4. Petz Dénes, *Lineáris Analízis* (in Hungarian):
   Akadémiai Kiadó, Budapest, 2002.

5. D. Petz, *Quantum Information Theory and Quantum Statistics*:
   Springer-Verlag, Heidelberg, 2008. **Hiv:** 154

Tudományos dolgozatok:

1. D. Petz, A characterization of the class of compact spaces: Studia Sci. Math. Hungar. **12**(1977), 407–408. **Hiv:** 5

2. D. Petz, Compactness as E-pseudocompactness: Commentationes Math. Univ. Carolinae **19**(1978), 309–314.

3. D. Petz, On a problem of D. Newman: Acta Math. Acad. Sci. Hungar. **32**(1978), 161–162.

4. D. Petz, Direct integral of multifunctions into von Neumann algebras:
   Studia Sci. Math. Hungar. **18**(1978), 239–245. **Hiv:** 2

5. D. Petz, On (E, k)-compact spaces:
   Colloq. Math. Soc. J. Bólyai **23**(1980), 945–955.

6. D. Petz, Genaralized connectedness and disconnectedness in topology:
   Ann. Univ. Sci. Budapest. Eötvös Sect. Math. **24**(1980), 247–252. **Hiv:** 8

7. D. Petz, On box product of syntopogenous spaces:
   Acta Math. Acad. Sci. Hungar. **36**(1980), 91–97.

8. D. Petz, On the class of compact topological spaces:
   Mat. Lapok, **28**(1980), 91–97. (in Hungarian) **Hiv:** 5

9. D. Petz, On center-valued states of von Neumann algebras:
   Acta Sci. Math. **43**(1981), 219–228.

10. D. Petz, A characterization of the canonical centre-valued trace in finite von Neumann algebras:
    J. London Math. Soc. **23**(1981), 329–331. **Hiv:** 4

11. D. Petz, Locally compact topological groups: Group von Neumann algebra and duality
    Mat. Lapok, **29**(1981), 329–341. (in Hungarian)

12. D. Petz, On spectral and central states of Banach algebras:
    Acta Math. Hungar. **42**(1983), 19–24.

13. D. Petz, Direct integral of multifunctions into von Neumann algebras:
    Studia Sci. Math. Hungar. **18**(1983), 239–245. **Hiv:** 2

14. D. Petz, On the finiteness of operator algebras with respect to an automorphism group:
    Rend. Math. **7**(1983), 483–489.

15. D. Petz, Fixed points and mean ergodic theorems:
    Colloq. Math. Soc. J. Bólyai, **35**(1983), 949–956.

16. D. Petz, Ergodic theorems in von Neumann algebras:
    Acta Sci. Math. **46**(1984), 329–344. **Hiv:** 21

17. D. Petz, Quasi-uniform ergodic theorems in von Neumann algebras:
    Bull. London Math. Soc. **16**(1984), 151–156. **Hiv:** 17

18. D. Petz, Ergodic theorems in von Neumann algebras:
    Functional Analysis: Surveys and Recent Results III, 189–196, Nort-Holland (1984).

19. D. Petz, Quantum ergodic theorems:
    Quantum Probability and Applications to the Quantum Theory of Irreversible Processes, Lecture Notes in Math. No. **1055**(1984), 289–300, Springer. **Hiv:** 2

20. D. Petz, A dual in von Neumann algebras with weights:
    Quart. J. Math. Oxford, **35**(1984), 475–483. **Hiv:** 19

21. D. Petz, A mean ergodic theorem with a look at martingales:
    Studia Sci. Math. Hungar. **19**(1984), 77–80. **Hiv:** 1

22. D. Petz, The relative entropy of states of a von Neumann algebra:
    Proc. Second Int. Conf. on Operator Algebras, Ideals and their Appl. in Theoretical Phys., Teubner Texte zur Math. No.**67**(1984), 112–117.

23. D. Petz, Spectral scale of selfadjoint operators and trace inequalities:
J. Math. Anal. Appl. **109**(1985), 74–82. **Hiv:** 20
