

Informations about retaking the homework

If you do not have 6 points from the two homework sheet (which is required for the signature), you can retake the homework. This means you can hand in such homework exercises, that you have not done correctly. The deadline is 2018. December 11. Similarly to the original homeworks, you can send your solutions to the email address szokemarton3@gmail.com or you can submit it in paper format on any lecture or practical lecture or maybe at the make-up midterm (on December 11). (Please, if you submit it in paper format, write an email about it to the above address.) If you would like to retake the homework, you have to pay extra fee through the Neptun system.
